# ACTA DIABETOLOGICA LATINA

VOLUME XXI 1984

CONTENTS

REVIEW

E. F. Pfeiffer: Are the 'second generation' oral hypoglycemic agents really different? 1

EDITORIAL

Z. Laron: Psycho-social problems of diabetic children and adolescents . . . . . 35

ORIGINAL CONTRIBUTIONS

A. Ceriello, P. dello Russo, F. Curcio, G. Paolisso, G. Illiano, S. Sgambato, D. Giugliano: Glycosylated proteins as an indicator of metabolic control in diabetes: evaluation by aminophenylboronic acid affinity chromatography . . . . . 49

M. Stangenberg, B. Persson, N.-O. Lunell, U. Hanson: Effect of treatment with insulin or diet on intermediary metabolites in pregnant women with chemical diabetes in the third trimester of pregnancy . . . . . 55

N. Ahmad, R. Bansal, A. K. Rastogi, J. R. Kidwai: Effect of PHA-B fraction of *Agaricus bisporus* lectin on insulin release and $^{45}Ca^{2+}$ uptake by islets of Langerhans *in vitro* . 63

G. Pozzoli, E. Vitolo, P. Collini, R. De Maria, M. R. Castelli, F. Colombo: Assessment of left ventricular function with M-mode echocardiography in a selected group of diabetic patients . . . . . 71

R. Mohan, V. Mohan, L. Susheela, A. Ramachandran, M. Viswanathan: Increased LDL cholesterol in non-insulin-dependent diabetics with maculopathy . . . . . 85

H. L. Reid, G. O. Obi, J. M. Oli: Reduced erythrocyte deformability and hyperfibrinogenemia in Nigerian diabetics with hemoglobin genotype HbAA . . . . . 105

R. S. Padrón, A. Dambay, R. Suárez, J. Más: Semen analyses in adolescent diabetic patients 115

A. Pollak, E. Schober, H. Coradello, A. Lischka, S. Levin, F. Waldhauser, G. Lubec: Influence of glucose fluctuations on alkaline phosphatase activity . . . . . 123

J. Martins-Silva, F. Levy-Cruz, J. P. Freitas, P. Sousa-Ramalho: Blood filterability and hemoglobin-oxygen affinity in diabetic patients with and without retinopathy . . 133

B. Krishna Ram, G. Sachdev, A. Chopra, M. G. Karmarkar: Biochemical characterization of ketosis-resistant young diabetics of northern India. *In vivo* effects of i.v. glucose, s.c. epinephrine and i.v. glucagon and *in vitro* effects of anti-insulin serum on adipose tissue lipolysis . . . . . 141

E. Gort, R. Güell, O. Valls: Diagnosis of urinary bladder disorders in diabetic children 153

M. Cignarelli, M. R. Cospite, G. Stefanelli, E. Guastamacchia, G. Nardelli, R. Giorgino: Duration of residual B-cell function in maturity-onset diabetes . . . . . 161

J. Ditzel, T. Jensen: The measurement of hemoglobin $A_1$. Evaluation of an 'aldimine eliminator' . . . . . 167

M. Hanson, E. Trell, L. Janzon, P. Laurell, S. E. Lindell: Chronic effects of gastroduodenal surgery on glucose and insulin response to oral glucose tolerance test in a population study . . . . . 173

P. Cohen, D. Dix: On the interpretation of the oral glucose tolerance test . . . . . 181

S. Mohanam, S. M. Bose: Influence of streptozotocin- and alloxan-induced diabetes on the metabolism of glycosaminoglycans . . . . . 203

J.-L. Richard, M. Rodier, G. Cavalié, J. Mirouze, L. Monnier: Human (recombinant DNA) and porcine NPH insulins are unequally effective in diabetic patients. A comparative study using continuous blood glucose monitoring . . . . . 211

A. Renauld, I. Von Lawzewitsch, R. C. Sverdlik, A. Márquez, D. Garrido, R. L. Pérez, R. R. Rodríguez: Effects of short-term thyroxine treatment on pancreatic cytology and responses of blood sugar, serum insulin and serum free fatty acids to epinephrine infusion . . . . . 219

P. Mondola, L. Patti, F. Santangelo, S. Coraggio: Changes in serum apolipoprotein B concentration after oral glucose or intramuscular insulin . . . . . 235

E. Bonora, S. Orioli, C. Coscelli, G. Buzzelli, P. Gentilini, U. Butturini: Possible roles of insulin, glucagon, growth hormone and free fatty acids in the pathogenesis of insulin resistance of subjects with chronic liver diseases . . . . . 241

L. A. De Giorgio, G. Seghieri, A. Gironi, P. Mammini, U. Bartoli, G. Bartolomei: Raised plasma fibronectin concentration is related to the presence of diabetic retinopathy . . . . . 251

G. Barosi, A. Baraldi, G. Bellomo, M. Cazzola, A. P. Martino, P. Palestra, P. Spriano, P. Fratino: Increased whole body hematocrit: venous hematocrit ratio in diabetes mellitus, evidence of microcirculatory hemoconcentration . . . . . 257

B. Hoskins, J. M. Scott: Effects of insulin on urinary calcium excretion by diabetic rats in the absence of blood glucose control . . . . . 263

P. Vannini, A. Ciavarella, R. Olmi, M. Flammini, A. Moroni, V. Galuppi, A. Giunti: Diabetes as pro-infective risk factor in total hip replacement . . . . . 275

R. Torella, R. Giunta, G. Scognamiglio, D. Giugliano, P. Di Pinto, A. Ceriello, F. Grandillo: The oxygen-release capacity of red blood cells in insulin-dependent diabetics after artificial pancreas . . . . . 281

B. Morell, M. Meyer, O. Porr, U. Bay, E. R., Froesch: Microalbuminuria and nerve conduction velocity in Type-I diabetics during conventional therapy and during continuous i.v. insulin infusion . . . . . 303

G. Bittolo Bon, G. Cazzolato, P. Avogaro: Lipids, lipoproteins and apolipoproteins in type 1 (insulin-dependent) and type 2 (non-insulin-dependent) diabetes mellitus . 315

Ch. Villaume, B. Beck, J.-M. Dollet, J.-P. Pointel, P. Drouin, G. Debry: Nightly amended IRI/BG ratio in fasting test during sleeping periods in subjects with insulinoma and in normal, diabetic and obese subjects . . . . . 325

P. Matsumoto, A. Brown, J. C. Dunbar: Biogenic amine regulation of glucagon secretion . . . . . 333

M. D. Wider, J. C. Dunbar: Chemical characterization of persistent immunoreactive glucagon in eviscerated rats . . . . . 341

N. Ahmad, M. M. Khan, A. K. Rastogi, J. R. Kidwai: Effect of age on *Agaricus bisporus* PHA-B stimulated insulin release and $^{45}Ca^{2+}$ uptake *in vitro* by islets of Langerhans . 349

G. Robuschi, R. Emanuele, L. T. Cavalli Sforza, L. Arsenio, A. Strata, A. Gnudi, E. Roti: Effect of iodine administration on thyroid function in diabetic patients . . 357

N. Ahmad, S. D. Sharma, A. K. Rastogi, J. R. Kidwai, K. B. Mathur: Stimulation of insulin secretion by peptides analogous to the C-terminal tetrapeptide amide of cholecystokinin . . . . . 361

K. Capito, C. J. Hedeskov, J. Landt, P. Thams: Pancreatic islet metabolism and redox state during stimulation of insulin secretion with glucose and fructose . . . . . 365

E. Bonora, C. Coscelli, U. Butturini: Residual B-cell function in type 1 (insulin-dependent) diabetes mellitus: its relation to clinical and metabolic features . . . 375

CASE REPORTS

C. Montecucco, G. Attardo-Parrinello, G. Brambilla, E. L. Chérié-Lignière, E. Ascari: Improvement of hyperinsulinemic diabetes following removal of a meningioma in Werner's syndrome. A case report . . . . . 193

G. Monfrecola, D. Martellotta, G. Bruno, M. Delfino, R. Iandoli: *Bullosis diabeticorum*: a case report . . . . . 289

Z. Rumboldt, B. Bota: Favorable effects of glibenclamide in a patient exhibiting idiosyncratic hepatotoxic reactions to both chlorpropamide and tolbutamide . . . 387

LETTER TO THE EDITOR

H. Keen: Reply to U. M. Kabadi: Diabetes mellitus: a new classification . . . . . 93
